Excellence in Compliance
Education for Financial
Organizations

Build your training program around content you can trust

A knowledgeable, well-trained staff is important in maintaining good client relations and ensuring proper procedures are followed. So, it's equally important to make sure you've got the right provider to help you maintain an up-to-date, comprehensive training program.

Our e-Learning Solutions offer reliable compliance-based training courses that are developed uniquely for banks and credit unions. These comprehensive compliance courses allow you to develop your training curriculum for key business functions in your organization, including:

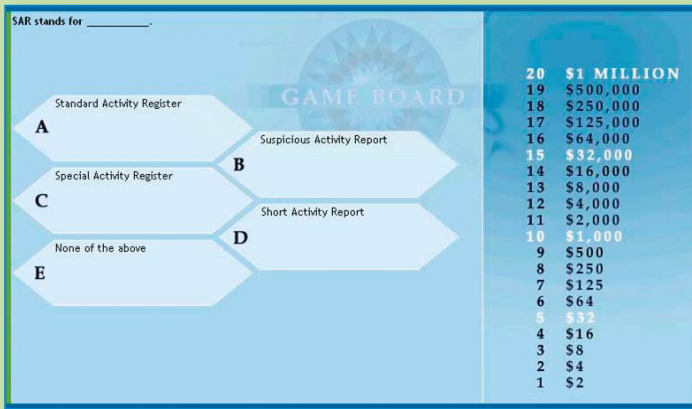

- Deposit
- Lending
- IRA and Health Savings Accounts
- Financial Intelligence (anti-money laundering, Bank Secrecy Act, fraud prevention)
- Operations

Train your staff with flexible, reliable, and quality course content

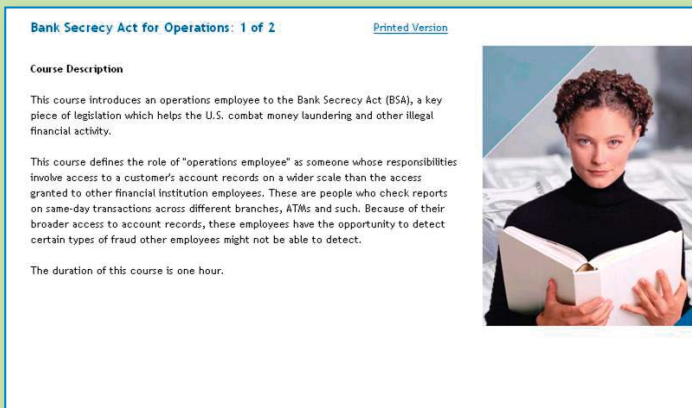

Our course content is professionally designed and includes modules and case studies with engaging, interactive functionality, such as review activities, scenarios, and game-based pre-tests and post-tests. You can count on our e-Learning Solutions to provide:

- Industry-specific content and course topics developed based on years of knowledge and experience
- Customizable learning library, offering you the flexibility to select only the courses your organization needs
- Course content authored using SCORM 1.2 standards, allowing you to host your content on your own delivery platform or through one of our partners
- Ability to print a PDF of the course screens, perfect for sharing with examiners
- Customization services and tools

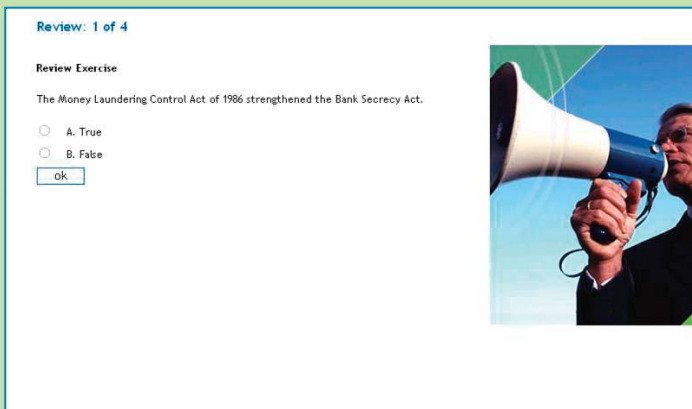

Interactive pre-test and post-test formats allow participants to challenge their knowledge before and after completing the courses.

An overview of each module creates an understanding of the course content and objectives at the beginning of each course.

Interactive review activities after each course section allow participants to check their understanding of the material covered throughout the course.

How it works

We work with you and a provider of your choice to integrate our e-learning compliance courses into your preferred learning management system. If you want a combined solution with our content already integrated, you will be able to work with our partners to select the solution that best meets your needs.

Each module includes:

- Plain language, understandable course material with a course overview and learning objectives clearly stated up-front
- Game-based pre-tests and post-tests
- Courses that are approximately one hour in length
- Interactive review activities at the end of each content section
